To Whom It May Concern:

The purpose of this letter regarding the aforementioned subject Tax Abatements is to advise City Council that we have not completed the project for which the tax abatements were granted.

As of 12/31/2017, the property buildings and related structures were not completed and there was no equipment on site or installed. There were also zero employees hired as of this date.

This information is in accordance with the originally filed and approved Statement of Benefits (SB-1) forms listing estimated completion date of January 1, 2019 for this construction project.

Therefore, our understanding is that there are no additional filings required at this time related to the Tax Abatements for the current reporting year of 2017.

Sincerely,
